

Student Consumer Information

(All data taken from 2009-2010 Academic Year.)

On Time Completion Rate	<p>The on-time completion rate was calculated by taking the total number of students that completed the program on time and dividing by the number of student that completed the program. The total was multiplied by 100 to get the percentage.</p> <p>Example:</p> <p><u>Students who completed on-time per the catalog.</u></p> <p>Students who completed the program.</p> <p>*100=On Time Completion Rate</p>
Job Placement Rate	<p>The job placement rate was calculated by taking the total number of students that complete the program and dividing by the number of students that are employed in the field they studied in. The total was multiplied by 100 to get the percentage. (Calculated by <i>Accrediting Commission of Career Schools and Colleges</i> standards.)</p> <p>Example:</p> <p><u>Students Employed in Field of Study</u></p> <p>Number of Students that Completed the Program</p> <p>*100=Job Placement Rate</p>
Median Loan Debt	<p>The median loan debt was estimated by charting the loan debt of all first time, full time students that entered into the program. The numerical values were put in ascending order and the middle number was chosen to represent the median loan debt. Gretna Career College only participates in the Direct Loan Program.</p>
